

Linewize

Wisdom beyond the filter

The web has changed – isn't it time to change the way you manage it?

**Lock in CIPA Compliance.
Pass classroom control back to teachers.**

The Value

As network admins in the K-12 industry, you wear more hats than any other vertical. The last thing you need is to spend countless hours tweaking your content filters.

Our mission is simple: Get IT administrators out of the filter!

The Linewize web filter is a pillar within our eco-system that offers granular control over websites and applications regardless of the device type, operating system, or location.

Our unique approach to web filtering provides administrators the ability to lock-in core CIPA compliant policies while extending micro controls to teachers for their classroom.

We've built a product for today's educational environment that reduces the workload for filter admins and provides seamless access to safe instruction without compromising reporting. The result? Students stay safe online and the network performs at an enterprise level.

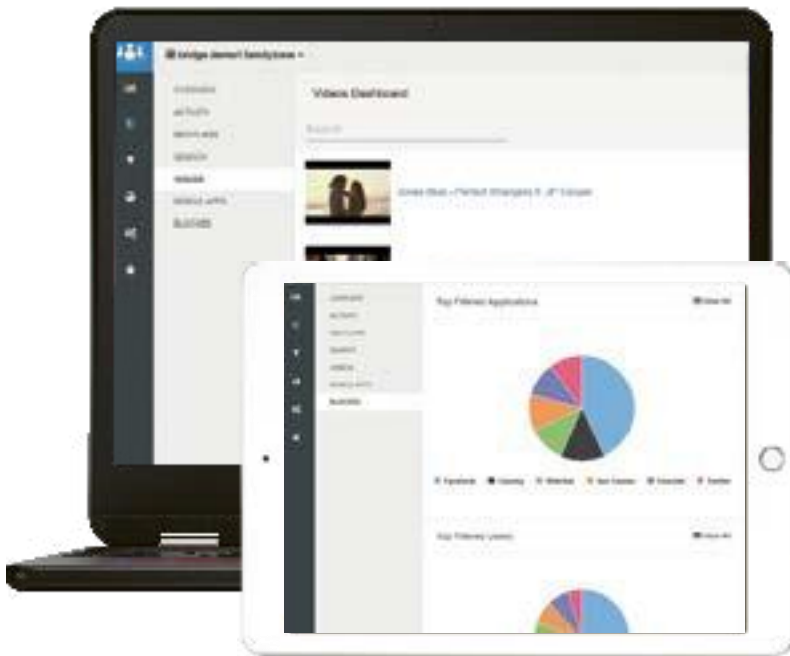

Your web filter shouldn't limit learning in the classroom.

It should enhance it.

Built for today's educational environment:

- ✓ One-to-one on or offsite
- ✓ BYOD - not limited to DNS
- ✓ AI to capture evasive applications
- ✓ Integrated classroom management
- ✓ Easily identify indicators of cyberbullying, self-harm, & violence

The Features

- Supports on-premises, hybrid cloud, and/or full-cloud deployments
- SSO directory integration with G-suite, Azure, localized AD, LDAP
- Google and YouTube controls
- K-12 specific categorization
- Cyber-safety reports with red flag alerts
- Wifi authentication via captive portal
- Device and OS agnostic
- SSL visibility without need to decrypt
- Filter devices on and off site with centralized management
- AI and machine learning for VPN control
- YouTube video visibility and playback
- Search term monitoring and alerting
- Application-rich categories
- QOS, bandwidth shaping, and quotas
- Granular-delegated administration controls with layman reporting for non-technical admins
- Accurate reporting combining CDNs with services they're actually used for
- Integrated classroom management with screen visibility
- Scalability up to 20GBPS

About Linewize

The Linewize ecosystem is a unique response to the challenge of today's connected learning environments. We align a series of products to help districts stay in regulatory compliance, get the most out of their purchased technology, keep kids cyber-safe at school, and impact your parent community by assisting them in raising good digital citizens.
